Africa is a land full of possibilities. It's a continent on the rise. But why can't we hear what Africans have to say, not only about Africa but also about the rest of the world? Unbiased news is in short supply. There is a void to be filled. This is why we're founding Africa Entertainment; an independent news organization focused on Africa. A brand-new adventure begins for a fully-fledged Pan-African network whose singular aim is to empower people through independent and trustworthy news. "Why Africa Entertainment?" You might wonder. At **Africa Entertainment**, we believe in people's intellect and that news is not about prejudices. Africa Entertainment is a platform that welcomes all points of view, ideas, and opinions.
