Arise Cosmetic is one of India's leading private label cosmetic manufacturers, offering world-class products across categories such as hair care, hair repair treatment, skin care, baby care, men's grooming, and intimate hygiene. Established in 2017, we began with a vision to bridge the gap between quality and speed in the cosmetic industry.

Today, we operate a GMP & ISO-certified, FDCA-approved facility with a production capacity of 5 tons per day, supported by a skilled team of cosmetic chemists, formulation scientists, engineers, and quality control experts. Over the past eight years, we have proudly partnered with 2000+ beauty brands, from emerging startups to established names across India.
