Perhaps you will not know that the family members are more troubled than the drug addicts because it is natural that we cannot see ourselves going into addiction. A person who has become addicted to drugs finds it very difficult to quit without any help. At the same time, we have to understand that intoxication is caused by many types of substances and their effect on our body is also different. We also admit the addicted person to the clinic or hospital in case of illness or overdose. On recovery from there, the patient returns to his old routine after some time which also includes taking drugs. Rather, the right way is that we should send him to a good drug **Nasha Mukti Kendra In Ghaziabad** where he can be treated well and come back to his normal life.
