SM Engineering is a leading manufacturer, supplier & exporter of Bulk Milk Cooler. Superior body materials and a multitude of features characterize Bulk Milk Coolers. Milk is shielded from bacteria, viruses, and fungi by the stainless steel body. We are manufacturing BMC machines with many sizes such as 300litre, 500litre, 1000litre, 2000litre, 5000litre, etc. Using a Bulk Milk Cooler improves dairy farms' operational efficiency while also aiding in the preservation of milk quality.
