China LiCB AC DC EV Charger Co., Ltd. has rapidly established itself as a leading EV charger manufacturer in China, dedicated to promoting sustainable transportation. We specialize in the independent research, design, production, and sale of a broad range of EV charging solutions, including space-efficient AC chargers and batteries for residential use, as well as high-speed DC charging stations for commercial applications. Our product range also includes innovative large-screen chargers featuring integrated media displays and durable, high-performance charging cables.

With a strong emphasis on research and development, a highly skilled engineering team, and an extensive patent portfolio, we are committed to maintaining the highest industry standards. Our focus on innovation enables us to provide reliable, state-of-the-art solutions that meet the evolving demands of the growing EV market. For more information, please visit our website.
