Explore a wide range of globally-inspired spa rooms, uplifting aromas, soothing steam, and calming music. Discover how our relaxing massage treatments relax your body and clear your mind.

Four hands massage is ideal for those who face difficulties in letting go of their hectic day to day struggles. Based on Ayurveda, this massage consists of two therapists that simultaneously work on the body in a choreographed manner. These choreographed movements and strokes aids in healing and relaxing the body. A service like this requires time and effort, which is why most massage centers in Udaipur are hesitant to offer this service. We here at Delight Spa, with a team of certified and professional Local & Northeast therapists, will ensure that you walk away from a 60- or 90-minute session with a renewed sense of joy and happiness. Not only we do provide the most authentic version of the four hands massage, but we also offer it for the most competitive prices in the Udaipur.
