Ecovative Pvt Ltd company formed under the vision of Dr. Ramesh Deshani with the mantra " Innovation with the care of Ecology ( ECOVATIVE)". Marketing his research product " Dharakalp®Lava Powder". The use of synthetic or factory-made agricultural chemicals leads to disastrous consequences for the entire environment, soil, water, and air. Our country, India, was once in the golden age of agriculture and the cultivation of crops with an equal value of gold, diamonds, and rubies is a thing of the past. The ground reality of the current dire situation of farmers, agriculture, and crop failure, it is time to restore fundamental rights to land, agriculture, and the environment making it chemical-free and restoring the agricultural splendor of the past. Dharakalpa is a natural mineral product that increases the bulk of the crops with high organic value by restoring soil biota and fertility.
