Doctorsand is India's largest sand procurement platform. We are a B2B managed marketplace for construction materials with a focus on high-volume construction products under our own brands. We cater to both institutional customers (B2B) and retail outlets (B2B2C) in the construction materials sector. Doctor Sand ties up with contract manufacturers (known as 'Cloudmills') and convinces them to utilize their idle capacity for yield enhancement. Currently, we are expanding in India, based on demand concentration as well as proximity to supplies.
