Elite Piping Academy Ltd provides training facility for candidates to master Mechanical Piping and Orbital welding training, quality and safety skills needed to work in the Pharma and Semi-Conductor Industries. Our training professionals are experts in high-purity orbital welding, pipefitting, safety and associated skill sets. For Engineering contractors, we can conduct training courses at your premises and give workshop and site training / coaching anywhere in the world. Our expertise spans a wide range of services, including recruitment, training, consulting, prefabrication, and on-site installations. We offer customized solutions to meet the precise needs of high-purity environments, ensuring that your projects run smoothly and meet the most stringent quality requirements.
