Established in 1990, Encon is a pioneer in the manufacturing and export of energy efficient cooling towers and axial flow E glass epoxy FRP fans. Founded by Mr. Sharma & Late Shri Basu, Encon has successfully install more than 5,40,000 units globally. Encon has since built the largest product portfolio by tackling all demanding industrial applications with smart technology. By producing high-quality products in in-house state-of-the-art R&D centers, Encon has garnered the loyalty of clients across 32 countries. Encon is also a corporate member of the prestigious CTI and produces fans and cooling towers that match international standards.
