An online pharmacy is also known as mail-order pharmacy and an internet pharmacy works over the Internet and places orders for customers by mail or online pharmacy portal. The Indian economy has grown day by day by purchasing products online. People are interested in buying products online. The Indian pharmaceutical sectors are growing fastest in India and also worldwide. Online pharmacies are better than offline pharmacies. They give us the best offers, low pricing, and are easy to return and more convenient to people, and also remote, and it is important to make sure that online pharmacy is authorized, it may be fraudulent. Based on industry analysis, The E-pharmacy is increasing in India at a higher CAGR of 40-45% compared to Global Pharmacy.

Indimedo is the largest top-level digital healthcare platform established in 2019. We deliver medicine hassle-free, convenient, and at an affordable price to buy medicine online at home.
