FTech Enterprises Private Limited was incorporated in 2017 with an aim of providing our client's best-quality productions in the field of fire protection & detection. We are ISO 9001-2015 (Quality Management system) certified firm.

We offers Fire Protection systems as per IS Standards / NFPA / FM Global with design / Supply / Installation / Testing & Commissioning.

With the strong backing of highly skilled and experienced field technicians, we provide our clients efficient installation of fire hydrant systems, fire pump houses, **fire sprinkler systems**, and much more. All our systems are carefully tested and installed so that you can have peace of mind that everything is perfect. We walk closely with all trades to determine the best routing and installation procedures. We use advanced technologies that can eliminate interference for successful installation of systems
