Acrylic extension nails are made with Glam White powder on Nails. Uniquely it's a powder that's high-quality, bubble-free, and guaranteed not to yellow. It's also used to make French nail tips on natural nails, as well as tips for nail extensions and sculpting forms. It gives the nails a whitish appearance. Moreover it aids in the hardening of the nails. It features tiny particle powder that mixes quickly and easily with acrylic liquid and dries quickly, additionally saving time. The powder is not cured with an LED/UV lamp. Furthermore, there are no dangerous chemicals in gel that could cause a reaction on the nails or skin. The weight of the white powder is 25 gms. A minimum of 40 consumers can be served with White Powder. It is highly and certainly recommended for Salon Professionals and Nail Lovers.

Glam White Powder is an excellent acrylic powder for making French manicure. This white acrylic powder is also known as Glam French white powder and Glam White Polymer.
