HORO TECH INDIA, A unit of HORO TECH was established in the year 1989 in Bangalore, South India. We have designed and manufactured specialised watch assembly tools and service tools for leading Watch Manufacturers such as HMT, Titan, Alwins, Fossil, Citizen and Westar for all categories of watches. We have played significant role in Indian Watch Industry and our specialised watch assembly jigs, fixtures and tools have enabled assembly of millions of Watches in India. Jigs, Fixtures and tools designed by us are compliant with Japanese and Swiss standards. Our tool room is equipped with sophisticated machines exclusively meant for manufacturing of tools for horological industry. We have highly skilled tool makers to meet the required quality for horological industry. We are also traders for Jewellery tools.
