Adaequare's Unified GST Suvidha Provider (uGSP) platform offers a comprehensive suite of APIs and services to streamline Goods and Services Tax (GST) compliance and electronic invoicing for businesses in India. Designed for seamless integration with ERP systems like SAP, Oracle, and Microsoft Dynamics, the platform facilitates efficient data exchange with government portals.

Key Offerings:

- **GST APIs:** Over 160 APIs supporting various GST return filings (GSTR-1 to GSTR-9), including data submission, retrieval, and tracking functionalities. ugsp.adaequare.com

- **E-Invoice APIs:** Customizable APIs for generating Invoice Reference Numbers (IRNs), integrating e-way bills, and automating invoice processing through REST or SFTP protocols. ugsp.adaequare.com

- **E-Way Bill APIs:** Robust APIs for generating, updating, and managing e-way bills, with features like millisecond response times and high availability. ugsp.adaequare.com

- **Invoice Management System (IMS) APIs:** Tools for real-time invoice validation, retrieval, and lifecycle management, including support for credit/debit notes and recurring invoices. ugsp.adaequare.com

- **Value-Added Services:** APIs for GSTIN validation, HSN code lookup, tax determination based on place of supply, and return status tracking. ugsp.adaequare.com+3ugsp.adaequare.com+3 ugsp.adaequare.com+3

Platform Highlights:
