

# Indias Top rated supplier of Rubber Mats and Sheeting

<b>Address</b>	6, SDC, GT Road
<b>Contact Person</b>	Anuj Jain
<b>Mobile Number</b>	9891568585
<b>Email</b>	how.ru007@gmail.com

Rubber Sheets are widely used in Industrial and DIY projects. These are known for resilience and flexibility.

Rubber sheets can be divided into two main categories: natural rubber sheets and synthetic rubber sheets.

Natural rubber sheets are made from the sap of the rubber tree and are known for their elasticity and abrasion resistance. They are widely used in industries like mining and agriculture, where durability and flexibility play an important role.

On the other hand, synthetic rubber is made from petroleum-based materials and offers better resistivity against corrosive chemicals, harsh weather conditions, oil, and aging compared to natural rubber.
