Mfr: Pressure Instruments: Digital pressure indicators/controllers Microprocessor based pressure dataloggers Pressure transmitters (sensor) Over pressure for low pressure applications Pressure transmitters for low pressure applications Circular chart pressure recorders. Humidity Instruments: Portable RH & dry bulb temperature indicators RH & Dry bulb temperature indicators with sensors (local/remote) Indicating RH & Temperature controllers Thermo hygro recorders Humidity dataloggers High temperature humidity transmitters Low temperature humidity transmitters Circular chart RH & Temperature recorders. Temperature Instruments: Portable battery powered temperature indicators Mains powered single point temperature indicators Digital indicating temperature controllers Temperature scanners Digital indicating chart recorders Temperature dataloggers Temperature transmitters Circular chart temperature recorders Miniature temperature recorders for blood bank. Flame & Weather-proof enclosures for temperature & pressure instruments. Process Indicators/controllers/counters: Process indicators/controllers Preset and Batch counters Event counters. For HAVAC applications: Differential pressure transmitters Very low differential pressure & over pressure switches. Mg Dir: H.S. Nagraj.
