Itone is a trusted Ayurvedic eye-care brand, offering a natural, gentle, and effective solution for modern eye strain and irritation. Crafted by Dey's Medical, Itone eye drops combine the wisdom of traditional Ayurvedic medicine with clinically backed formulation to support healthy vision in today's fast-paced world.

Formulated from a potent blend of around 19–20 herbal ingredients - including Neem, Tulsi, Turmeric, Honey, Bhringaraj, Haritaki, and Sandalwood - Itone provides soothing relief for dry, tired, red, or burning eyes.

Its unique antiseptic and anti-allergy properties help flush out irritants like dust, allergens, or pollutants, making it especially beneficial for screen fatigue, computer vision syndrome, conjunctivitis, and eye allergies.

Regular use of Itone helps maintain the natural lubrication of the eyes, protecting them from further damage while promoting rejuvenation and a cooling sensation. Clinical and pharmacological studies highlight its safety and efficacy, making it a reliable choice for long-term use.

Whether you spend hours in front of a screen or feel the impact of environmental stressors on your eyes, Itone is designed to help you maintain clarity, comfort, and overall eye wellness - naturally and holistically.
