Anabrez is the hormone therapy medication used for the treatment of breast cancer in post-menopausal women. Although **Anabrez 1mg price in India** is high, it is advisable to use Magicine Pharma as it provides medications at an affordable price. Anabrez stops the conversion to estrogen which furthermore inhibits the cell proliferation of cancer cells. Also, some side effects of this medication are – constipation, dizziness, shortness of breath, and yellowing of eyes and skin.
