MARS Chem is a water treatment chemical manufacturing company established in the year 2012. We are a trusted supplier and also importer of specialty chemicals for total water and waste water solutions. We provide water treatment plants and equipment ranging from low to mid-size capacity along with the supply of Effluent Treatment Plants and Sewage Treatment Plant facilities tailored to suit customer's requirement.

We undertake and execute O&M services of RO, Cooling Tower, Boiler, ETP/STP and other customized services related to commissioning and O&M of water and waste water system. We also ensure to meet the customer's requirement with reference to quality, timely delivery and after sales services through updated cutting edge technology.
