MBM Tubes is a Mumbai-based manufacturer specializing in the worldwide supply of high-quality stainless steel seamless pipes, welded tubes, and U-tubes. Their operations are supported by a dedicated workforce of over 150 employees, including technocrats, engineers, and supervisors. The company boasts state-of-the-art manufacturing facilities and advanced in-house testing equipment, ensuring precision and consistency in every product they deliver.

The company emphasizes rigorous quality control, adherence to international standards such as ASTM, and reliable delivery timelines. Its product range includes seamless and welded tubes and pipes, instrumentation and boiler tubes, and duplex steel variants. MBM Tubes serves a wide array of large and medium-scale industries around the globe, recognized for its commitment to quality, innovation, and customer satisfaction.
