Med School Entry is a comprehensive, Consultant-Led service supporting aspiring medics and dentists in their **Medical & Dental school applications**. We provide a personalised service from start to finish using our expertise as experienced doctors, dentists, educators, mentors and coaches. Our track record speaks for itself. We guide you through all the necessary stages, helping students and families achieve their dreams.

Our Other Services

- **UCAT Course and Tutors**
- **Oxbridge Medicine**
- **Personal Statements**
- **Work Experience**

We are the Number One Platform for UK Medical & Dental School admissions

As parents of aspiring medical students, we saw firsthand the challenges of navigating the complex admissions process. Many organisations lacked personalised guidance with professional advice from experts who truly understood the system. Determined to bridge this gap, we created a platform that not only supports students but also empowers parents who want their children to succeed.

What sets us apart is our Consultant-led, targeted support. We provide expert mentorship, ensuring that both students and parents receive reliable, high-quality information and an exceptional experience throughout this demanding journey.

At **Med School Entry**, we are committed to making the admissions process clearer, more accessible, and ultimately, more successful for every student. To fulfil this, you are with Dr Khan and Dr Ahmed from start to finish, both senior Consultants, NHS GPs and Medical Educators with decades of experience.

Kickstart your journey to medical school success with expert UCAT and interview ; **Join Med School Entry**

today and secure your place in top UK medical universities!
