Medprime started in 2014 with a team of four students wanting to improve the healthcare system while doing our MTech projects. We have crossed several checkpoints as an Indian tech startup in the last six ;We have moved out from our campus to a bigger office, expanded our team to more than 30 employees and have our CILIKA microscopes in more than 20 Indian states and Union Territories. We have been able to paint the nation blue with our affordable, high-tech microscopes.
