Nayesha Mills encourages a healthy lifestyle with a range of naturally extracted edible oils. Our Kachi Ghani processed wood pressed oil and cold pressed oil have been integral parts of our ongoing commitment to promote "healthier and happier living." We use wood churners (Kachi Ghani) to produce wood pressed groundnut oil, mustard oil, and sesame oil. We preserve your health by avoiding adulterants and chemicals for extracting oil from seeds. Every drop of cooking oils that Nayesha Mills delivers to your door is pure. You only need to cart on your favorite cold press oil online to get the best quality at a reasonable price. You can find us in your nearby grocery stores, Amazon, Big Basket, and Flipkart.
