I, Manali Kabra, a photographer from the city of Mumbai and Creating beautiful maternity photography, baby portraits and Newborn Photography in Mumbai & India. A photography service that includes styling, props and creative images.

Newborns are my favourite subjects to photograph and I shall be privileged to undertake each and every opportunity given to me to document these adorable little souls. I understand the importance of taking photographs of your little ones at these early momentous stages and capturing their entire childhood on reel, and vow to give you something you will treasure! Being a baby magnet and a baby photographer I really know it's more than about just f-stops and shutter speeds. It's the tenderness, trust and emotional connect that takes precedence.
