Nuvotone is the brain child of Mompreneur, Mrs Sangeeta Das (Cosmetologist & Aromatherapist).

The formulation of the products started out with her unending curiosity in the gifts of Mother Nature around us and how to use that to help her family and friends experience the vast benefits of clean & chemical-free age-old Ayurvedic herbal practices in this modern world.

Multiple courses & studying later, Nuvotone was introduced to the market so everyone can improve their lives with clean & chemical-free Skin & Hair Care products.

Synthetic & Chemical Beauty Products give an instant glow, which damages the Skin & Hair, affects our health as we expose our Skin directly to chemicals and even causes severe allergy to most people.

Nuvotone products are free from Parabens, Alcohols, Mineral Oils, Harsh Chemicals, Synthetic Colours, Artificial Fragrances, Petrochemicals & Animal Testing.

All our Ayurvedic Formulations contain clean & non-toxic ingredients derived from nature, with each product containing multiple herbs & plant extracts which have amazing effects on our Skin & Hair and overall health as Modern Science is now giving us proof of.
