Mobile Number	
Email	ocecoenergy@gmail.com

OCECO is a top-notch **Ceiling Fan Manufacturer** in India. We develop a BLDC Fan which saves 65% of electricity consumption with the premium design and remote control.

Our journey started in 2015 with two engineer's passion for doing something that can be beneficial for society by their engineering knowledge. During the search, they identified that every Indian pays 26% of the electricity bill on the fan. In this way, they got a goal that they need to do something that can reduce electricity consumption in the fan.
