OptiMix - Software To Calculate Least Cost Charge Mix

Address	403, Corporate House, Opposite Dinesh Hall, Near Income Tax Cross Roads
Contact Person	Bhumin Mashruwala
Mobile Number	
Email	optimixseo@gmail.com

OPTIMIX is an ingenious software developed exclusively for melt shops which allow our customers to save money literally going into smoke.

The software is developed based on Mathematical Programming that uses an algorithm to calculate Least Cost Charge Recipe possible with raw materials available in your foundry, for the given target chemistry for desired metal grade.

OPTIMIX is the must have product for any foundry.

Here is why - 1.) Cost Savings - Lowest Cost Charge Mix Recipe Mathematically Possible.

2.) Control - Complete Control Over Your Final Product.

3.) ROI - Product That Gives ROI Within Months!

4.) Feel Confident - Feel Confident About Final Chemistry After Using Low Cost Scrap Available.
