PlusPhysio is a comprehensive, cloud-based physiotherapy software and practice management solution built exclusively for physiotherapy and allied-health clinics - whether a solo therapist, a multi-location practice, a mobile physiotherapy team, or a sports/rehab & recovery centre. The platform brings together appointment scheduling, secure electronic health records (EHR), treatment progress tracking (including SOAP notes and recovery scores), intelligent billing & invoicing, tele-health modules, document management and real-time analytics - all tailored for the unique workflows of physio-practices.
