Hipco Superbuild is the first PEB manufacturer in Nepal to have steel structure manufacturing capabilities that cater to mid to large-scale industrial projects, commercial complexes, warehouses, residential, showrooms, poultry, resorts, and more. Designed with the end-user in mind, we can customize our industry-leading PEB steel products to fit any need, be it in structural framings, primary and secondary members, roof or wall installations, expansion of an existing structure, or for any pre-engineered structure (PES) and pre-engineered building (PEB) in Nepal. Whatever the scenario, we can adapt our solution to meet your specific project needs.
