Founded in 2018, **Modelcam Technologies Pvt. Ltd.** is a leading software reseller and service provider, based in Pune, India, with a global presence in the USA. Specializing in advanced CAD and Product Lifecycle Management PLM solutions, Modelcam is a trusted partner for businesses across industries such as automotive, aerospace, medical devices, and heavy equipment.

As an authorized reseller and trusted partner of PTC, Modelcam Technologies offers state-of-the-art PTC Creo software, empowering companies with powerful tools for 3D design, simulation, additive manufacturing, generative design, IoT integration, and augmented reality. These cutting-edge solutions accelerate product development, streamline design processes, and boost manufacturing efficiency.

In addition to software solutions, Modelcam excels in PLM services, including Windchill PLM implementation, CAD customization, and system integration. The company supports clients throughout their product development lifecycle, offering expert consulting, post-sales support, and training to optimize design and production workflows. Modelcam's services also include ERP integration, ensuring a seamless flow of data and processes across systems.

With over 23 years of combined experience, Modelcam's team of engineers and PLM specialists deliver cost-effective solutions that improve design accuracy, reduce rework, and speed up time-to-market. The company also provides IoT solutions and an augmented reality app designed to integrate with PTC Creo, taking the design and prototyping process to new heights.

Recognized by PTC for excellence in pre- and post-sales service for two consecutive years, Modelcam Technologies continues to set the standard for innovation and customer satisfaction in CAD and PLM solutions.
