The foundation of Pyramid Overseas Education Consultants was laid in 2003 by two dynamic management professionals, Mr. Vikram Shah and Mr. Manish Dayani. Equipped with Master's degrees from the United Kingdom and firsthand international exposure, they set out to simplify the overseas education process for students in India. Their goal was clear-to offer reliable, student-focused support for those aspiring to study abroad.

From day one, Pyramid Overseas has been committed to helping students overcome challenges in foreign education systems. With decades of combined experience, our leadership and expert counselors ensure that every student receives accurate guidance, timely assistance, and stress-free support for admissions and visa processing.

Over the years, we've achieved remarkable success, helping thousands of students secure admissions to top universities across countries like Canada, the UK, Australia, the USA, France, Germany, Ireland, Dubai and the New Zealand. Our journey is defined by our professionalism, transparency, and a strong ethical foundation. We don't just consult-we care.

At Pyramid Overseas Education Consultants, students are not just clients-they're family. Our commitment to their success, combined with our transparent process and personalized service, has earned us immense trust and heartfelt gratitude from families across the country. These relationships are the true milestones of our journey.
