Shri Ram Institute has been established with a vision to impart futuristic education with high values of discipline, morals, and the concept of noble thinking. We offer our students a blend of managerial as well as technology skills so that they can combine the knowledge they have gained at our business school and leverage contemporaneous technologies to gain a formidable competitive edge. Enterprise-level technology tools are the backbones of medium-size and larger businesses and hence they are an integral part of our overall curriculum.

Over the last two decades, India has seen revolutionizing change in the prospects of tourism. The Government of India has been promoting tourism ever since. Shri Ram Institute was born with the idea of providing education, skills, and job opportunities to the youth of the country so they can be a valuable part

---

of the country's workforce.
