Raysil is India's largest manufacturer of viscose filament yarn, offering the most premium and versatile fabric yarn for the fashion world. Raysil is the viscose yarn that weaves the fabrics of vogue, helping everyone look their best. As the secret behind every luxurious fabric, Raysil creates evergreen, elegant viscose filament yarn. This yarn is the soul of every garment, ensuring it drapes beautifully, fits perfectly, and offers the best sheen and smoothness, is skin-friendly, and vibrant in color and lustre. Raysil is truly the essence of exceptional fashion.

Raysil offers a complete range of 100% natural and biodegradable viscose filament yarn made from the finest wood pulp. The name encapsulates the richness the yarn exudes, making it the most sought-after yarn by the fashion fraternity globally.

Luxury is personified with 'Raysil.' This premium yarn is also extremely versatile and is used in making apparel-woven and knitted-home furnishings, embroidery embellishments, and accessories, mainly for occasion wear, festive wear, and stylish, trendy wear.
