Recycling Hub is a Pollution Control Board authorized waste recycler. Along with the purchase & collection of scrap materials Recycling Hub provides a wide range of value-added services which certainly creates a lot of convenience for its clients in managing their scrap/waste. We are currently serving over 100 different manufacturing industries across Gujarat and other parts of India. Recycling Hub is addressing some of the most important needs of its clients who understand the value of a plastic waste recycler, hazardous waste recycler, battery waste recycler & E waste recycler. We also provide the EPR (Extended Producer Responsibility) Services to the Industry.
