F7 O2 Supplies Pvt Ltd for your medical equipment needs. We are proud to be the largest medical equipment supplies company in all of India, and we specialize in providing high-quality medical equipment for rent and sale at very affordable prices.

Our goal is to help you or your loved one get the medical equipment you need to manage your health and achieve better health and well-being. We offer a wide range of products to meet your needs, including oxygen cylinders, oxygen concentrators, hospital beds, CPAP & BiPAP machines, and suction units. All of our products are designed to meet the highest standards of quality and safety, and we stand behind everything we sell.

One of our most popular products is our oxygen cylinders. We offer a variety of sizes to meet your needs, from small portable cylinders that can be carried with you wherever you go, to larger cylinders that can provide oxygen for an extended period of time. Our oxygen cylinders are perfect for patients who require supplemental oxygen to manage their breathing difficulties, such as those with COPD, asthma, or other respiratory conditions. We also offer oxygen concentrators, which extract oxygen from the air and deliver it to the patient in a continuous flow. Our oxygen concentrators are ideal for patients who require long-term oxygen therapy and want to avoid the hassle and expense of constantly refilling oxygen cylinders.

In addition to our oxygen products, we also offer a wide range of other medical equipment. Our hospital beds are designed to provide maximum comfort and support for patients who require extended bed rest or have limited mobility. We offer a variety of bed types to meet your needs, from basic manual beds to advanced electric beds with features such as adjustable height and backrests, bed rails, and built-in scales. We also offer a range of mattresses, overlays, and accessories to enhance your comfort and promote healing.

For patients with sleep apnea, we offer CPAP & BiPAP machines. These devices use air pressure to keep your airways open while you sleep, allowing you to breathe easier and get a better night's rest. Our CPAP & BiPAP machines are designed to be easy to use and comfortable to wear, and we offer a variety of masks, hoses, and other accessories to meet your needs.

If you or your loved one requires suction to remove excess fluid or secretions from the airway, we offer a range of suction units to meet your needs. Our suction units are portable and easy to use, and we offer a variety of suction catheters and other accessories to ensure a comfortable and effective suctioning experience.

We understand that medical equipment can be expensive, which is why we strive to provide our products at the most affordable prices possible. Whether you need to rent or buy medical equipment, we have a solution that will meet your needs and fit your budget. We offer flexible rental plans with daily, weekly, and monthly rates, as well as discounted rates for long-term rentals. We also offer financing options for customers who wish to purchase their equipment outright, with affordable payment plans to fit your budget.
