SalesMagna is a powerful cloud-based Field Force Automation (FFA) and Distributor Management System (DMS) designed to simplify and optimize sales operations for modern businesses. Built for FMCG, Pharma, and B2B industries, SalesMagna helps companies manage field sales activities, distributor orders, stock levels, employee attendance, and customer interactions - all from one intelligent platform.

With real-time data, smart location tracking, geo-fence-based orders, smart notifications, and offline functionality, SalesMagna empowers your sales teams to work faster, stay accountable, and drive consistent growth even in remote areas.

Key Features:

- Smart Location Tracking and Attendance Management
 - Beat Planning and Visit Management
 - Real-Time Sales Order Capture
 - Geo-Fence Enabled Outlet Visits and Ordering
 - Distributor Stock and Secondary Sales Management
 -
-

Tour Programs and Target Tracking

- Smart Notifications and Alerts
- Offline Functionality for Remote Areas
- Custom Reports and Advanced Analytics

SalesMagna doesn't just digitize your sales process - it transforms it. By connecting your field team, distributors, and head office on a single, easy-to-use platform, SalesMagna ensures faster decisions, better visibility, and stronger business growth.
