Nutri Meal by Silage Agro one of the emerging product selling company. The company was established in the year 2014 by Mr. Sahil Anand. It is the first company in India using exclusive European Machinery for making High Quality Corn Silage Bales. Their mission is to improve the productivity of Indian Dairy farmers and help them in getting the most out of their farms by providing them International quality products and services.

They provide a high quality feed with precise nutritional balance and that is what makes them different. They also provide innovative packaging for long shelf life of about 18 months. The animals that they feed are cows and Buffalos.

They have vertically integrated operations starting from Farm to Retail marketing. They have an exclusive MoU with a leading US based Multi National Company. Mr Sahil Anand is the one who has touched heights with his great work and innovative thinking which not only fulfill the basic needs but ones nutritional needs too.
