Soham Polymers is a leading polymer manufacturer in India, specialising in high-quality acrylic and water-based polymer solutions for a wide range of industries. As a reputed acrylic polymer manufacturer in India, we develop advanced polymer technologies that offer excellent adhesion, durability, flexibility, and performance. We operate as a reliable emulsion polymer manufacturer, supplying polymer emulsions for paints, construction chemicals, textiles, paper, adhesives, waterproofing systems, graphic applications, and industrial coatings.

With strong R&D capabilities and modern infrastructure, Soham Polymers is also a trusted polymer binder manufacturer, producing acrylic and polymer binders for coatings, tile adhesives, construction applications, and industrial formulations. Our water-based polymer emulsions are designed to meet demanding industry standards while supporting sustainable manufacturing practices. Through custom and application-specific solutions, Soham Polymers continues to serve as a preferred polymer manufacturing partner across India, delivering consistent quality, innovation, and performance-driven polymer emulsion products.
