Earthing system for critical electronics complete supply & execution using 3E Brand (22kgs) manufactured by renowned group (Jaipur) . We use best in class measurement meters and provide prompt services. we are already addressing Earthing issues for installed systems at India / Middle east for leading projects, **These EARTHING Materials are specifically designed to operate in zero-moisture areas & temp -50 Deg C to +60 degrees Celsius. Also we have testing meters and can take work to measure on sandy/rocky soils**

Lightning Protection systems : complete supply and installation of Conventional system as per IS 2309 and International Standard NFC 17-102 for wide-angle coverage area protection (UPTO 79 MTRS coverage) for Hi Rise structures prone to electro-magnetic disturbances of nature. **Make : EUROSTAR , CE mark of Quality. European made of high grade SS416 with patented design.**

NOTE : Lighting Arrester is patented design with 06 SIGMA RODS for super-ionizing the Main Rod, EUROPE's no.1 brand at affordable prices with CE QUALITY MARK, better than TURKEY made products !

SOLAR PV & Water Heating systems : complete supply and installation of solar power based modules with patented CAPSULE technology and tested as per IEC standards on very economical costs, used for many national and international projects
