Maple Inc providing opportunity to students where they can gain from their education overseas. We help students towards their chosen career paths at the destinations of their choices.

**Maple Inc** was founded in the year 2015. Our mission is to help students from India and indeed from all over the world satisfy their taste for standard international education. We are one of the best and most comprehensive study-abroad consultants in India. Our services include counselling students on lucrative career options and matching them to the best schools abroad based on their profile, choice, background, and aspirations for suitable careers.

We have established a valuable relationship with some of the best world leading universities from various countries. This enables us to easily advise students and help them get admission into the best schools where they can satisfy their taste for a quality education while enjoying a higher quality of life.

Here at **Maple Inc**, we believe that quality education abroad should be followed by lucrative job options, this is why we advise students before matching them to a school that is right for them. We don't only help you get admitted; we also provide help and guidance in getting visa fast and in settling in your new environment when you eventually move abroad.
