Telepathy Infotech is a leading IT services provider specializing in Dedicated Developer Services for startups, SMEs, and enterprises. We help businesses hire dedicated developers proficient in modern technologies like Flutter, Python, iOS, and Blockchain. These developers work exclusively on your projects, ensuring a high level of expertise and commitment.

Our teams deliver cost-effective, scalable solutions for web and mobile app development, enterprise software, and digital marketing, enabling businesses to build a strong online presence and achieve their IT goals. With a focus on innovation and quality, we integrate seamlessly with your team, offering complete flexibility and control over your projects. Whether you're looking to develop cutting-edge iOS apps, implement Blockchain solutions, or leverage Flutter and Python for custom applications, Telepathy Infotech is your go-to partner for digital transformation.

Dedicated Developer Services We Provide

Web Developers – Skilled in front-end & back-end development

Mobile App Developers – Android, iOS & cross-platform experts

Software Developers – Custom software solutions tailored to your business

iOS Developers – Build high-performing native iOS applications

Python Developers – Expert solutions in Django, Flask & AI/ML projects

AngularJS Developers – Dynamic, responsive & scalable web apps

Blockchain Developers – Smart contracts, dApps & blockchain solutions

Flutter Developers – Cross-platform apps with a native-like experience
