Trank Technologies is a well-renowned IT and software solutions company in India that excels in mobile app and web development technologies. Since our beginning in the tech world in 2013, we have assisted B2B and B2C companies in India and overseas with integrated solutions. Our extensive array of app development and software services encompasses eLearning, eCommerce, real estate, healthcare, fintech, cryptocurrency, and other prominent sectors that thrive on a digital boost to reach their target audiences. Our idea of growth hinges on adaptability and scalability. Therefore, our services also cover technology consulting, UI/UX design, and brand identity solutions. Our main services are Android & iOS App Development, Hybrid Mobile App Development, Cross-Platform Development, PWA Development, eLearning Development, Custom eCommerce development (MEAN & MERN), Magento eCommerce, Mobile Commerce, Shopify eCommerce, WooCommerce, PrestaShop, OpenCart, Custom Web Portal, & Laravel Development. In addition to experienced technology professionals, Trank Technologies is also equipped with in-house sales and customer support teams.
