With the passage of time, Vehant Technologies gained name and fame. Vehant Technologies offers solutions mainly in the three categories. These three categories are premise security and safety, traffic management solutions, and COVID Safety solutions. Here is the description of these three types.

- **Premise Security and Safety**

This portfolio of the Vehant technologies provides an array of efficient as well as good products. These products include a vehicle scanning system, X-ray Baggage Scanner, explosive trace detector, automated number plate recognition system and so on.

- **Traffic Management Solutions**

The traffic enforcement solutions by Vehant Technologies provide numerous detection capabilities. These capabilities include Red light Jump, over speeding, no helmet riding, intelligent transport management system, wrong lane movement so on.

- **COVID Safety Solutions**

This category offers a wide range of solutions that are related to the violation and analytics. Temperature screening, face mask detection, social distance monitoring, and so on are the part of this category.

Those as mentioned above are the major services that are offered by Vehant Technologies.
