Vehant Technologies - Face Mask Detection

Address	B-73, Block B, Sector-57, Noida, Uttar pradersh
Contact Person	vehant technologies
Mobile Number	+11204610200
Email	Chauhanshweta790@gmail.com

Vehant's creation, COVID Analytics™ is an AI, and Computer Vision driven image analytics solution which caters to the Covid-19 related violations. Fused with advanced techniques in Geo tagging and AI algorithms, it is engineered to observe violations such as Social Distance Monitoring, Face mask detection and Vehicle Movement Detection (during movement restrictions imposed by authorities). The visible and wide stream from cameras and AI techniques help in providing real-time alerts against COVID violation detection, even in large areas. It can also be programmed to issue hot-list warnings.
