Website Care Plans

We will take care of your business website, you take care of your business. Yes, Time is money and it should be spent wisely and invested in increasing your business by talking to your clients and not by spending tons of hours behind the desk in maintaining and updating your website. Leave it to us and We will take care of your website for you. Just focus on growing your business.

- Website care, Website Maintenance, Security and Reporting
- Website Edits and Content Updation Support
- Consulting and Training

Maintenance, Security and Reporting

You will have a peace of mind, as your website software will be kept updated to the latest release. We do regular monthly updates on your website to make sure it is safe and secure. Website performance is also fine tune in this. Monthly Report of website maintenance is emailed to you.

Now a days most of the online website's are targeted by malicious users, We do regular security maintenance of the website software and also scan it for any malicious code injected into the site. Monthly report of website security scan is emailed to you.

Website Edits and Content Updation Support

We offer regular monthly website edits and content updation on your website. This Support varies from 1 hour to 4 hours based on the website care plan you selected. Website Edits and Content updation includes work such as adding testimonials, changing Image or adding events which will take us specified work hours.

Consulting and Training

Video Tutorials: Professional video tutorials with unlimited access, which will help you manage your Website Content and Seo.

Web Strategy & Training: Monthly strategy call to check, refine and update web strategy we used to attract

customer's to your business. Training is also included in this if such requirement raises.
