WhiteLion believes in the power of technology and understands that technology improves lives. With this belief in mind, we have proceeded thus far into the terrain of Home Automation through our smart switches. In a short span, WhiteLion has become the largest manufacturer of smart switches in India. We wish to provide our customers with the latest technology that is trending in the world through our own research and development efforts. We are proud to have produced all our products in-house including the software for our mobile app. Our Wi-Fi enabled smart switches can be operated with a mobile app or through smart assistants like Alexa and Google Home.
