Acoustic paneling can be done for ceilings and walls depending on the amount of space in which the paneling is to be done. When it comes to solving acoustic issues and modernising your environment, Tranquil has the best designs. According to your acoustic requirements, we provide a range of products. These decorative panels add aesthetic appeal to any space, whether it be a residence, workplace, commercial spaces or school. [url=]Wooden[/url] Acoustic panels come in the shapes of wall panels, clouds in the ceiling, and baffles. These come in a wide range of choices and classifications.
